

SMART+ AS-S SCALE INHIBITOR

Description

Designed for use in reverse osmosis and similar membrane systems, Gradiant's Smart+® AS-S is a highly effective scale inhibitor formulated to prevent silica scale formation. Other species that are controlled by Smart+ AS-S are calcium carbonate, strontium sulphate, barium sulphate, calcium fluoride and metal oxides scale.

Applications & Features

- Excellent silica scale inhibition
- ANSI/NSF Standard 60
- Excellent shelf life
- Can be diluted for smaller systems
- Sea water RO
- Brackish water RO
- Ready to use liquid
- Mining, Food & Beverage, Municipal

Technical Specifications

- Available in 15L, 200L, 1,000L
- pH 2.5 (neat)
- Specific gravity 1.23
- Clear, yellow liquid
- Not affected by oxidising chemicals
- Miscible with water
