

SMART+ CIP-ECO-OH ALKALINE MEMBRANE CLEANER

Description

Gradiant's Smart+[®] CIP-ECO-OH alkaline membrane cleaner is specifically designed with sensitive environmental discharge requirements while maintaining strong and effective cleaning results. The formulation is phosphate & EDTA free and is ideal for removing organic, biological, silt, particulate, and other acid insoluble foulants from membrane surfaces.

Applications & Features

- EDTA & phosphate free (EDTA surrogate utilised to improve biodegradability)
- ANSI/NSF Standard 60
- Buffered pH to maintain optimum cleaning performance
- Powdered form
- For use in RO, NF, MF & UF membranes
- Targets wide variety of foulants

Technical Specifications

- Available in 25 & 45 lb packages
- pH (1% solution) 10-11
- White powder
