

SMART+ SI1 ANTISCALANT

Description

Gradiant's Smart+[®] SI1 is a specially formulated phosphate free scale inhibitor with proven performance in high carbonate, sulfate and silica scaling waters.

Applications & Features

- Phosphate free for environmentally sensitive discharge
- NSF Certified for use in membrane systems producing drinking water
- High pH, temperature & salinity applications
- Sea water RO
- Brackish water RO
- Ready to use liquid
- Mining, Food & Beverage, Municipal
- Can be diluted for smaller systems

Technical Specifications

- Available in 15L, 200L, 1,000L
- pH 3.5 - 5.0
- Density of 1.2 - 1.38
- Available up to 40% concentration
- Pale yellow liquid
- Miscible with water
